

Management skills boost for bankers

MANAMA: The Human Resources Development Fund Banking and Financial Sector (HRDF) approved three applicants to be funded to study for their professional qualification in Bahrain.

They are Salman Abdul Aziz Al Hasan and Tayseer Ahmed Al Atawi from the National Bank of Bahrain and Manar Mohammed Rabea from Takaful International.

They will all study for professional certification of Certified Management Accountants (CMA), said HRDF manager Nada Abul.

"We urge employees of the financial service industry to apply for funding, develop their skills within specific professional programmes and associate their names" she said.

"The financial sector is growing and in need for professional Bahrainis to fill gaps in some skills.

"The HRDF has been set up to support locals aiming for further development."
